SUMMARY

A proactive and self-motivated Business Analyst with a strong passion for business analysis and continuous self-learning. I work effectively both independently and in teams, valuing collaboration, adaptability, and mutual learning. With a strong growth mindset, I aim to develop into a Middle-level Business Analyst within the next 1–2 years.

EXPERIENCE

THE ALAB DATA TECHNOLOGY

Business Analyst Fresher

06/2025 – Present

TravelAI – Agentic AI Travel Planning Chatbot (12/2025 - Present)

- Analyzed requirements and user journeys for AI-powered travel planning features.
- Designed conversational flows, use cases, and wireframes; leveraged AI-assisted (Vibe Coding) tools to rapidly prototype and validate UI concepts.

Nam An Bird's Nest ERP System – Production Module (09/2025 - 05/2026)

- Gathered requirements for production planning, material management, and manufacturing workflows.
- Produced BRD, SRS, user stories, sequence diagrams, and wireframes using Figma.
- Worked with developers and testers to support UAT and issue clarification

Wonder Wood ERP System – Human Resources & Finance Module (06/2025 – 02/2026)

- Analyzed HR and finance workflows, including employee management and expense tracking.
- Developed use cases, activity diagrams, and functional specifications for implementation.
- Coordinated with the development team during implementation and testing phases

Yummy Food Ordering & Management System (03/2025 – 08/2025)

- Designed customer flow wireframes and interactive prototypes using Figma
- Collaborated with stakeholders and developers to refine feature logic and user experience

Business Analyst Intern (Full-time)

03/2025 – 05/2025

Yummy Food Ordering & Management System

- Collected business requirements for ordering, payment, and restaurant operations.
- Created BPMN diagrams, user stories, and functional specifications to support development.

Business Analyst Intern (Part-time)

12/2024 – 02/2025

Fashion Inventory Management System (Mobile App) – The SHEA

- Gathered inventory management requirements and documented user stories in Agile/Scrum.
- Designed process flows, use cases, and interactive prototypes using Draw.io and Figma.

SKILLS

- **Technical skills:** Requirement Elicitation, BPMN, UML, User Stories, Agile/Scrum, Vibe Coding
- **Software and Tools:** Figma, Draw.io, Notion, Lark
- **Soft skills:** Communication, Teamwork, Analytical Thinking, Problem-solving, Adaptability
